

Tires and wheels are the foundation of any driving experience. They are specifically engineered to fit your vehicle. Keeping them in safe working condition is key – and should be one less thing for you to worry about.

Potholes, rocks, nails, glass—these are just a few of the hazards you’ll encounter during normal day-to-day driving. An average tire can cost \$160 and a wheel can run more than \$300 to replace.

The **SECUREDRIVE** Tire and Wheel vehicle service contract protects these critical components of your vehicle, covering the repair and replacement (when damaged beyond repair) of your wheels and tires.

Drive with confidence knowing these unforeseen hazards won’t turn into costly out-of-pocket repairs.

SECUREDRIVE pays for most expenses associated with a road hazard incident:

CHOOSE BETWEEN 3 AND 5-YEAR PLANS:

	Tire*	Rim*	Repair**
Standard	\$250	\$500	\$40
Premium	\$350	\$700	\$50

- Includes mounting/balancing/valve stems
- Transferable
- Cancellable

* Maximum replacement benefit
 ** Per tire, per incident

SAMPLE TIRE AND WHEEL REPLACEMENT COSTS:
